WORK EXPERIENCE

Humana   **May 2023 – August 2023**
Software Engineer Intern   Fort Lauderdale, FL
- Completed a full-time (45 hours/week), immersive program defined by guided and independently designed projects as well as formal presentations to senior Humana leadership (e.g., CIO)
- Contributed to the successful modernization of the CGX application, utilizing Visual C#, ASP.NET, and Microsoft SQL Server for efficient data management and web development
- Collaborated intimately with assigned development team, using Azure DevOps for effective project management, version control, and continuous integration
- Achieved Humana SQL Server Certification. Subsequently leveraged these advanced skills in the day-to-day development cycle of the actual CGX application
- Designed and implemented a Swagger API enabling improved data retrieval and management for team members

Camp Kweebec   **June 2021 – August 2022**
Summer Camp Counselor   Schwenksville, PA
- Supervised and provided leadership to a bunk of 15 campers over a 7-week period
- Designed and led several recreational and educational activities in collaboration with senior staff members
- Demonstrated strong leadership and problem-solving skills by handling disciplinary issues, responding to camper emergencies, and managing conflicts

Vice City Collectibles   **October 2020 – August 2022**
Marketing and Sales Manager   Fort Lauderdale, FL
- Organized, marketed, moderated, and analyzed results of live auctions on behalf of the company across multiple platforms (e.g., Whatnot, Twitch, Instagram Live)
- Created sponsored advertisements which resulted in exponential growth of 15,000 followers across social media
- Designed and utilized software critical in the distribution and organization of business inventories

ACADEMIC INVOLVEMENT

TAMID Group   **January 2023 – Present**
Junior Software Developer   Gainesville, FL
- Collaborate with a team of student developers, designers, and project managers to implement global software projects from conception to deployment
- Develop strong interpersonal and communication skills by working in a team environment, presenting project updates, and communicating technical concepts to non-technical club members
- Engage routinely with an assigned mentor to continuously learn and improve technical skills and technique
